"SUNKIST" Wrappers

Another Big "SUNKIST" Sale Lasting All FREE! Next Week, Begins Monday Ap. 3d

The biggest lot of oranges that ever came to this city has just arrived—THREE MILLION of them. They are packed at special Fast Freight direct from the big "Sunkist" fruit grove of California. They are the "Sunkist" brand, famed for their delicious flavor and health-giving properties. Each local fruit dealer is laying in a liberal supply of "Sunkist" oranges and next Monday afternoon dealers will put on a Special "Sunkist" Orange Sale, lasting throughout the week.

California's Finest Oranges

"Sunkists" are California's most luscious oranges—the choicest of each of 5,000 California Orange Farmers. They pack all their perfect oranges under the one name, "Sunkist," and ship them by special fast freight the day they are picked.

The "Sunkist" is a ripe-ripened orange, seedless and fiberless—never pithy—ever.

"Sunkist" is firm, solid and sound. It is picked by a gloved hand. No orange that falls to the ground or becomes bruised or damaged in any way, ever bears the "Sunkist" name.

"Sunkist" oranges are cheapest to buy because they are thin-skinned, firm and seedless. They are nearly all food and no waste. You lose money if you buy pithy, seedy, thick-skinned oranges.

How to Serve Them

Oranges are the most appetizing and nourishing food you can serve—at breakfast—in the sick-room—between meals—in salads, ices, sherbets and puddings.

There is no limit to the number of excellent dishes of "Sunkist" oranges from the banks of the Pacific.

Buy a box of "Sunkist" oranges and your fruit dealer will make you a special price. You will find no trouble in keeping them as long as you want to, because "Sunkist" reach you in excellent condition.

Physicians Advise Them

Leading physicians say that to counteract the effect of meat and other heavy foods we eat, one should eat oranges liberally. It is a universally known fact that orange juice is an excellent food for the brain cells and a tonic for run down nerves. No better laxative than food, ripe "Sunkist" oranges can be found.

Sound No More Than Common Oranges

"Sunkist" oranges are cheapest to buy because they are thin-skinned, firm and seedless. They are nearly all food and no waste. You lose money if you buy pithy, seedy, thick-skinned oranges.

Free Premiums for "Sunkist" Wrappers

The "Sunkist" orange always comes in a "Sunkist" tissue paper wrapper that protects the oranges and retains all their tree-ripened flavor. This name on the wrapper means you are buying, at a reasonable price, the finest orange of all.

"Sunkist" wrappers should be kept and sent to us to secure, free, a set of Rogers' 2011 styles, designed exclusively for Rogers' Knives. The patterns are simple and easy to make. Who Shot The Arrow?

It Offered a Poor Boy an Education Anonymously

The citizens are said to be trying to capture a Russian town named Minsk, which certainly contains an admirable lot of strategy and persistence.

Every good citizen will unite with Sir Percy in the heroic protest against the "Liberation" of this state of affairs.

Published in another column, the action of the City Council with the British would be being taken.

For the sake of the city, the tax law and also the tax law of Mayor Alderman regarding his tax law, the investigation must go on, and the sooner the better.

Montreal Daily Witness—It would be very desirable for Canada, and a very big loss for the "Liberation" of this state of affairs.

A Talk About Tea

We have sold Tea for so long in Belleville that it would be impossible to read any article without about Tea without thinking about

STROUDS

We Save the Expense of Packages--

Put All the Cost into the Tea Itself

The cost of putting up packet teas is considerable and this is further augmented by the necessary expenses of advertising them. Then again unless a packet tea is put up in it in little better than highly rolled paper.

There has been a considerable advance in the price of certain lines of tea, and if you have been in the habit of buying tea at the old prices, you will find it a pleasure of introducing you to our JAPANESE, ENGLISH, DRINKABLE AND CIGARETTE TEAS. WE HAVE TO DIVIDE PROFITS WITH NO ONE, AND NOTHING HAS TO BE ADDED FOR EXTRA COST OF SELLING.

The manufacturer of packet teas is confronted with the problem: He must either employ men to sell his tea direct to the retail trade or allow some wholesale house a profit for doing the work. IT IS THEREFORE EVIDENT THAT THIS BEST ARTICLE FOR THE MONEY CANNOT BE OBTAINED IN PACKET TEA.

Let us demonstrate this to you. Tea and Coffee Demonstration every afternoon in the Japanese Room. Ask to have some of our Special Blends demonstrated for you.

Try Our Kettledrum at 40c per lb.

STROUD'S

To a letter dated March 27, Mr. Stroud writes: "I am glad to hear that you are interested in my tea. I have been in the tea business for many years and I have a good knowledge of the tea trade. I have a large stock of tea and I am always ready to supply my customers with the best tea at the lowest price. discretion of the style of dress.

It also appeared that the

husbands maintained a lively in-

terest in what their wives were

and were advised as to what should

be done to be looked by the editor,

who offered much sympathy. A para-

graph of modulations in the style

of fashion is quoted: "It means this."

"When a husband has been a

HAD PAPER FOR THE

Fielding and Paterson Were Ignorant as to Comparative Prices—They Had Not Studied the Question—The Americans were Fully Informed—They had Price Lists and Export Advice—The Canadian Ministers Made the Treaty on American Briefs

The question was not straight the Government—Had Mr. Fielding and Mr. Paterson been told that the Americans were fully informed of the comparative prices of paper in the United States, they would have been making their respective largely find the Government to be an ass, and would have been at least of the question.

Every indicator leads to the belief that the two ministers went to Washington without studying the question, without figures as to trade, paper, or any other information, and without articles needed in various industries with which to go expert advice. The men who had been studying the question carefully, who had the benefit of the advice of, accordingly, competent students of tariff conditions, who had before them relevant information on all subjects germane to the negotiations, in short, the Canadian Ministers made the treaty on American briefs.

The Figures Supplied.
Such is the theory. Every element of the treaty on the basis of the figures supplied. It is, however, a fact that the figures supplied were not complete.

1. When the President's assurance of the comparative values of a short list of commodities, including a list of the comparative values of the commodities, was a statement of the fact that the comparative values of the commodities were not complete. The fact that the comparative values of the commodities were not complete. The fact that the comparative values of the commodities were not complete.

2. Ascent from the figures supplied to the fact that the comparative values of the commodities were not complete. The fact that the comparative values of the commodities were not complete. The fact that the comparative values of the commodities were not complete.

3. Could Not Get It Out.
The United States, however, was able to get the information out of the Americans. The fact that the comparative values of the commodities were not complete. The fact that the comparative values of the commodities were not complete.

4. The United States, however, was able to get the information out of the Americans. The fact that the comparative values of the commodities were not complete. The fact that the comparative values of the commodities were not complete.

Government Estimates

was made in Western Town Property during the year 1909

Did you participate in these huge profits or did you "pig-out-ho!" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had this chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to grab it? The man or woman entitled to sympathy in the one case is worth \$10,000. The average person enters at the person who makes such a statement and says: "I would have bought and made a money! Are you going to say five years from now that you had a chance to buy a lot of Fox, Ailsa, at from \$50 to \$100 each, or are you going to be the man who will have from \$1,000 to \$10,000 in cash as a result of having bought property in this town in this year of grace, 1911?"

DOE A COMING COMMERCIAL CENTRE.

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Two districts possess rich coal mines, in close to rivers and lakes and large forests are easily accessible from this point. These natural resources insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

DOE AS A MANUFACTURING CENTRE.

This town and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind requiring large numbers of people. The rivers and lakes furnish water, the coal fields and forest furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost. The town is located on the main line of a transcontinental railway, securing the necessary transport facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

HOME OF PRINCESS LOUISE IN FLAMES

LONDON, April 24.—Rensworth House, the property of the Duke of Argyll and the Scottish home of the Princess Louise, Duchess of Argyll, caught fire a few days ago, and soon afterwards the flames had torn through the roof.

The fire broke out in the heating apparatus on the top flat. The West-End Fire Brigade set out by motor to the house and the Captain sent a contingent of lads from the Empire, under competent officers, to assist in quelling the fire.

Workmen and residents in the neighborhood lost nothing, and by half-past two the outbreak had been quelled. The upper flat was in ruins and the historic gild had been generally damaged by water. The damage amounts to £150, but so far as it is known no buildings were destroyed.

Rensworth House, which occupies the site of an older structure destroyed by fire, was built from a design of Joseph Bonomi, just over a century ago.

It is situated near the southern railway of a picturesque farm by Loch

The West Not Sold

One of the assertions most persistently made by the advocates of reciprocity is that a large majority of farmers in all the provinces and practically all the people of our western provinces are in favor of the pact. The assertion as to the farmers of the eastern provinces has been abundantly disproved, and of late it has become apparent, as the result of information which has been coming to hand from reliable sources, that the west has been grossly misrepresented in the matter.

The Toronto News, which has done grand service in placing before the public figures, facts and telling arguments bearing on the great national question, states in an issue of Saturday last that nothing could be further from the truth than the constantly repeated statement that the West is sold for reciprocity. The News is in receipt of many letters from the prairie country protesting most strongly against the Washington bargain. Many western farmers oppose the compact. A Manitoba agriculturist writes that amongst all the farmers to whom he has lately spoken only one supports the Government's policy.

The manager of a fire insurance company, who does an immense business throughout Manitoba, Saskatchewan and Alberta, writes:

A large number of farmers have spoken to me in connection with the reciprocity matter, and I am absolutely surprised at what they are saying, more especially the Liberals. It was never so surprised in my life as to see the strong rigid that prominent Liberals are talking and writing so vigorously with the United States, and of course all the Conservatives are opposed to it. I am not a Conservative, but I am a Canadian, and I am sure that the Manitoba could be gained by the Liberals and the reciprocity pact in their platform. We are certain of the support of reciprocity in this country, and the big point about the whole matter is that the Liberals are as much opposed to it as the Conservatives.

The Winnipeg Board of Trade, the Winnipeg Grain Exchange and the Manitoba Legislature, continues our contemporary, have condemned the new fiscal departure by overreaching majority. The Legislature at Saskatchewan has declared unanimously for it. The Legislature of British Columbia voted against reciprocity with only one dissenting voice, and there is no doubt that the Pacific Coast Province disdains the whole business of Mr. Fielding's trip to Washington and its results.

The western press is divided on the issue. The compact receives "sincere opposition from such newspapers as the Winnipeg Telegram, the Saskatoon Capital, the Regina Pioneer, the Moosejaw News, the Calgary Herald, the Nelson News, and the Vancouver Province and News Advertiser. The Canadian Century says: "If a plebiscite were taken on this question we guess that British Columbia and Manitoba would give their majority against reciprocity, that Saskatchewan would give for reciprocity, and that Alberta would divide evenly on the question, with a fair chance of a majority against."

The indications are that the Grain Growers' Association is being run by free trade agitators who are just out from England, and who make a great deal more noise than their importance warrants. "Fanatical extremists," they set up a great hue and cry, but the probability is that in the long run the average Canadian farmer instead of being misled by the agitators will take into rational considerations. In any event, we are ready to treat the issue to a popular vote. The Government, on the other hand, is intent on forcing through Parliament a fiscal resolution introduced in secret at Vancouver without the consent of the Canadian people.

Wheat and Reciprocity

With the reciprocity proposal has come a sharp decline in American wheat prices instead of an advance in Canadian grain quotations. In a recent issue The Farmers' Advocate of Winnipeg says:

"Since the terms of the reciprocity pact were made public, wheat has been getting cheaper. On January 20th May wheat was worth \$1.08 per bushel in Duluth and \$0.94 cents in Winnipeg. Up to the day the terms of the agreement were announced there had been a difference of from 9 to 14 cents per bushel in the price of wheat at these two points. The first week in January, May wheat in Duluth sold at an average of 10 cents over Winnipeg; in the second week, 13 cents; in the third, 10 cents; and in the fourth week, 9 cents. In the first week of February there was an average current of 7 cents; in the second week, 4 cents; in the third, 5 cents; and in the last week in the month, 4 cents. From the day that free wheat was known to be part of the reciprocity pact down to the end of February, the May option in Duluth declined from \$1.08 to \$1.04 cents, a shrinkage of 4 cents per bushel, and the same option in Winnipeg declined from \$0.94 cents to \$0.91 cents, a shrinkage of 3 cents per bushel.

"Involuntary farming, as I understand the term, means raising from two to four acres on the same land in one summer."
